North Seneca Solar Seneca County, New York

NOTICE OF MAJOR AMENDMENT TO APPLICATION

North Seneca Solar Project, LLC (Applicant) is proposing to construct the North Seneca Solar Project (Project), a proposed up to 90 megawatt (MW) solar powered major electric generating facility proposed to be located in the Towns of Waterloo and Junius, Seneca County, New York. Pursuant to 16 NYCRR Part 1100 Section 1100-1.6, this notice announces that on or before November 8, 2024, Applicant will file a Major Amendment with the Office of Renewable Energy Siting and Electric Transmission (ORES).

On March 4, 2024, Applicant submitted an Application to ORES under former N.Y. Executive Law 94-c (currently Public Service Law Article VIII). On October 4, 2024, Applicant submitted a Request for Permission to Submit an Amendment to the Application. On October 21, 2024, ORES granted Applicant's request to submit an Amendment and proceed with the Amendment as a Major Amendment. The Amendment includes relocating the point of interconnection (POI) substation and collection substation to the north side of the existing the Farmington – Hamilton 115 kilovolt transmission line, which is the Project's POI. The POI and collection substation relocation moves the facilities approximately 1,000 feet north-northwest of the previous POI substation and collection substation locations and is required for compliance with the transmission owner's interconnection requirements (see Figure below). The Amendment doesn't add any new or additional tax parcels to the Project.

All updated application materials remain subject to the ORES review and subsequent determination of completeness in compliance with Public Service Law Article VIII and 16 NYCRR part 1100. Applicant is

proposing to file a Supplement and Amended Application on or before November 8, 2024 addressing this Major Amendment, including revisions to various Exhibits of the Permit Application, along with additional information proposed by the Applicant to address the Office's Notice of Incomplete Application dated May 3, 2024. Applicant will also publish notice of the Amendment in accordance with 16 NYCRR 1100-7.1(c)(3).

Further details regarding the Project and updates on the Amendment will be provided on https://www.northsenecasolarproject.com/. To get in touch with a member of the Project team, contact us at:
